

2015 AP[®] PSYCHOLOGY FREE-RESPONSE QUESTIONS

2. Chandler and Alex were transferred to a new city and needed to find a new home. They carefully considered every house within their price range and finally purchased one that met all their criteria.

A. Explain how each of the following is related to their decision to buy the home.

- Prefrontal cortex
- Algorithm

One month before the move, Chandler and Alex asked friends to help them organize and pack their belongings. One week before the scheduled moving day, they learned that they needed to move out within 48 hours, so they quickly finished packing.

B. Explain how each of the following concepts could be related to their moving process.

- Social loafing
- Alarm stage of the general adaptation syndrome

C. Provide an example that explains how each of the following concepts could be related to life in their new home and new neighborhood.

- Proactive interference
- Habituation
- Normative social influence
